FICTIONAL DEMONSTRATION • NS-2026-014

Exhibit A — Purchase order

2026-10-01

Exhibit A — Northstar purchase order NS-2026-014. On 1 October 2026, Northstar Training Ltd ordered 60 new Meridian M14 business laptops from Meridian Devices Inc at USD 1,200 each, for USD 72,000 total. Northstar paid USD 36,000 as a deposit; USD 36,000 is stated to be due after delivery. The laptops must operate for ordinary office work and training, include 16 GB RAM and a 512 GB SSD, and pass a four-hour operating test. Delivery is due on 15 October 2026. The signed order says the seller will repair or replace confirmed defective units within ten business days after written notice. It contains no express disclaimer of merchantability and no exclusive-remedy clause. The order contains no choice-of-law or forum clause. This is a fictional transaction; the applicable jurisdiction must be established before any legal conclusion.

Exhibit B — Delivery receipt

2026-10-15

Exhibit B — Northstar delivery receipt NS-2026-014. Meridian delivered 60 laptop cartons on 15 October 2026. Northstar's warehouse clerk signed: Received 60 cartons; quantity only; equipment performance not tested. Six cartons had visible corner dents. No serial-number mapping between the dented cartons and individual devices was recorded. The delivery receipt does not establish when any device defect arose, whether a legal acceptance occurred, or whether any right was waived. This document is fictional.

FICTIONAL DEMONSTRATION • NS-2026-014

Exhibit C — Inspection report

2026-10-17

Exhibit C — Northstar inspection report NS-2026-014. Northstar's technician tested all 60 Meridian M14 laptops on 17 October 2026. Twelve devices shut down within 30 minutes, and a different six devices could not charge. Eighteen distinct devices failed and 42 passed the test. All 60 devices matched the ordered RAM and SSD specifications. The report includes device serial numbers in a separate attachment that has not been supplied. The technician found no visible liquid damage but did not disassemble the devices. The report records symptoms, not a proven root cause. Repair cost and latent defects in the other 42 devices are not established. This document is fictional.

FICTIONAL DEMONSTRATION • NS-2026-014

Exhibit D — Buyer notice

2026-10-20

Exhibit D — Northstar buyer notice NS-2026-014. On 20 October 2026, Northstar emailed Meridian reporting 18 failed laptops, attaching the inspection report and requesting repair or replacement under the purchase order. Northstar offered access to the failed units and asked Meridian to propose collection arrangements. Northstar wrote that the affected training class had been postponed. The sent-message copy is supplied, but proof of receipt is not. Northstar has not supplied a formal rejection notice, a revocation of acceptance, or evidence that the unpaid USD 36,000 balance was withheld lawfully. The legal effect and timeliness of the notice remain questions for analysis. This document is fictional.

FICTIONAL DEMONSTRATION • NS-2026-014

Exhibit E — Supplier response

2026-10-22

Exhibit E — Meridian supplier response NS-2026-014. On 22 October 2026, Meridian acknowledged the complaint about 18 laptops. Meridian asserted that all units passed its factory testing and suggested transit damage or a buyer power-supply problem. No factory test records, carrier report or expert report accompanied the response. Meridian offered to inspect six sample units on 27 October 2026 but did not commit to repair or replacement by a specific date. The response does not resolve whether the defects existed at delivery. Meridian's asserted causes are disputed allegations, not established facts. This document is fictional.

FICTIONAL DEMONSTRATION • NS-2026-014

Exhibit F — Loss schedule

2026-10-24

Exhibit F — Northstar loss schedule NS-2026-014. The 18 affected laptops have a contract price of USD 21,600, calculated as 18 times USD 1,200. Northstar lists USD 2,400 in temporary laptop hire and USD 900 in inspection expenses, both supported by fictional invoices in this exhibit: hire invoice NH-2400 and inspection invoice NI-900. Documented outlays total USD 3,300. Northstar also alleges USD 8,000 in lost profit, but supplies no bookings, margin calculation or mitigation evidence. Contract price, refund, repair cost and consequential loss are different measures and must not be added automatically or double-counted. The legal recoverability of any sum has not been established. This document is fictional.
